

Electromechanical Engineer – Robotics

Location: Livingston, Central Scotland

Salary: Competitive, DOE

Contract: Full time, Permanent

Cyberhawk is the recognised world leader in the provision of industrial inspection and land surveying solutions using drones. Our customers include Oil & Gas, Utility and Renewables companies, both onshore and offshore, in the UK, Europe, USA, Middle East and Asia.

We provide highly differentiated services that offer safety, flexibility and cost advantages over existing inspection and surveying methods.

The Role - Electromechanical Engineer:

Are you proactive, dynamic and adaptable with an appetite for learning and developing new skills to overcome technical development challenges?

Do you have the ability to work within a team of software, engineering, technical and commercial experts to create market leading solutions?

Due to our continued growth we are looking to appoint an intelligent, degree qualified engineer with electrical-mechanical skills to work in the research, design, building and development of drone related projects.

- Strong electromechanical design and integration experience
- Ability to demonstrate experience in engineering design
- Ability to clearly articulate ideas and designs through technical writing/communication and engineering drawings
- Proficient in building prototypes from a design
- Good practical skills (3d printing, soldering)
- Proficient programming skills for integration of systems

The Ideal candidate:

Essential

- Possess Mechanical or Electrical Engineering degree
- Be meticulous with attention to detail
- Have excellent communication skills with an ability to operate effectively as part of a team
- Must be able to work with minimal supervision
- Must have good problem-solving skills

Desirable

- Previous experience in a drone related development is an advantage

This is an excellent opportunity to join a fast growing and dynamic company in an exciting industry. If you are enthusiastic, innovative, possess a strong sense of professionalism and a desire to work with like-minded people to drive a business forward, we want to hear from you!

If you feel you have the necessary skills and experience to be successful in this role please send an up to date copy of your CV and a cover letter detailing your suitability for this role and salary expectations to recruitment@thecyberhawk.com
